Acknowledgements

This publication on the history of the Equatorian South Sudanese Community Association in the USA (ESSCA-USA) is the product of eighteen months of research, review of documents and writing. The publication would have not been possible without the diligent efforts and dedication of two exceptionally brilliant individuals, Dr. Edward Eremugo Kenyi, and Dr. Henry Y. Lejukole, who played instrumental role in the compilation of all the documents needed, the framing, analysis and write up. By creating an online repository for all the necessary documents and reports for the project, Dr. Lejukole made access to the needed material easier and handy. Dr. Kenyi was particularly helpful in framing the content of the publication and determining which theme to be included and where within the document. I, and indeed, ESSCA-USA in general is indebted to them.

Numerous individuals contributed to the success of the work of the history publication committee. Many thanks go to Benaiah N. Duku for providing a list of individuals, their email and phone contacts, who have knowledge of, and in possession of useful documents related to the association. Through these individuals, the committee was able to obtain important documents and information about ESSCA-USA. I would like to thank all the individuals who provide documents, reports, conference programs, pictures, and other very useful verbal and/or written information. These include Seme L. Enosa, Robert Simbe, Martin Abucha, John Omunu Dorteo, Alison Mazinda, Peter Kujjo, Lawrence Becu Mogga, Kawunda Mogga, Emmanuel Walla, Aflred Hakim Lado, James Okwaramoi, Agnes Hassan Olwar, Lado Gubek, Michael Elikana, James Omol Lodu, Martin LoMatayo, Leeka Gwanganalie, John Mena Joshua, Jimmy Jame, and Quintino Lolik. Special thanks also go to Robert Simbe, Martin Abucha, and John Omunu Dorteo for responding promptly after being contacted for documents relevant to the committee work. The publication of this document would not have been possible without their commitment and expedited response. Similarly, I would like to thank all those who responded to the call by providing useful suggestions and referrals to individuals familiar with the genesis of the association. Last but not the least, this publication would not have been a success without the unwavering support of ESSCA-USA leadership and members of the general assembly. Thank you.

Dr. Jane Kani Edward

President, ESSCA-USA

State of New Jersey, USA
